

Dear Patrons,

Greetings from Grabbit+

April is the month we dedicate to our trendsetting launch of 2019 – **CRANE MERCHANT MEDIA**, a vending machine that introduces the wonders of 'media touch'.

We believe that 'Excellence', is the unlimited ability to improve the quality of what you have to offer. At Grabbit+, we pursue quality with a passion that enables us to make available to our customers the best in technology and innovation.

CRANE MERCHANT MEDIA will revolutionize traditional vending by its latest technology and aesthetics. Designed to make the transaction process as easy and intuitive as possible, this machine has been made available by us in the Indian market and is gaining popularity for redefining the retail experience through its '**Touch Embedded System**'. Lean and understated, sleek design lends extra elegance to office interiors. Its interactive touchscreen has an attractive LED front for better visibility in the dark and it has **ADA (Americans with Disabilities Act)** compliant, smooth collecting bins that can be operated single handedly.

Our machine is, however, defined by more than its look. Its '**Vend Sensor**' technology ensures that the selected product is appropriately and smoothly dispensed. The use of green technology helps reduce the carbon footprint. Thoughtful design and smart technology has made **CRANE MERCHANT MEDIA**, the most reliable and consumer friendly snack vending machine. Simply put, it helps us deliver the delightful experience that we promise to all our users.

- 1** All-in-One (Snacks, Beverage & Perishable)
